## Recommended Top Novelties for 1956

**EVELYN CLAAR** (Krause) 33" EM. Dor. AM-1955 \$5.00  
This broad petaled cool soft pink has taken the daylily fanciers by storm. It is first on the Popularity Poll 1955, and received the AM by the largest vote of any variety. This is the 'pink' of the year!

**LILAC TIME** (Wheeler 1954). 40" M.Re. Ev. \$7.50  
Widely recurved lavender pink bitone, sepals dusted with lavender. Large 7" flower, chartreuse throat. Wheeler's best light pink to date.

**MARIONETTE** (Lester) 36" Mla. Dor. \$3.00  
A startling beauty of buttercup yellow with wide band of rich mahogany red above the throat. We recommend this unhesitatingly.

**PICTURE** (Lester) 40" E-M. Dor. \$10.00  
A 6" bloom of lovely bright rose-pink. Petals over 1½" wide, Sepals 1". Widely flaring trumpets; good evenings. One of the most sought after pinks. Only a few available.

**PINKIE** (Sax.) 20" Mla. Dor. \$5.00  
We did not expect to be able to list this in 1956 but luckily we found some extra stock. A Miniature dwarf pink with rose eye. Dainty and unsurpassed in its class.

**PLATINUM BLONDE** (Wheeler) 48" Ev. M. 10.00  
In the near-whites this may well be the best from Mr. Wheeler. A very large, wide petaled flower of light ivory deepening to a light canary throat. Widely recurved petals, fluted edges. Stunning!

**PORTRAIT** (Wheeler 1955). 30" Ev. July \$4.50  
Of the hundreds of Wheeler purples we have grown this has proven one of the most reliable. A fine purple with pronounced cream midribs forming a striking 6 pointed star.

## Our Cover Picture Flower

**SYLVAN**. 40" Dor. M.-La. \$5.00  
A sparkling clear rose-pink with a cream midrib. This is our favorite late-blooming pink. Cool nights brighten the color. Strong grower and a lovely flower.

## A New Pink for 1956 from Dr. Stout!

**JENNIE LOVE** 36"-40" M. Dor. \$5.00

We are honored in being able to offer this new pink. Selected after years of breeding from *H. fulva* var. *Rosea*. A 5" flower with spreading petals and recurved sepals, both somewhat twisted. The pink petals have red veins and midzone, the latter bisected by the gold of the throat. Scapes well branched and erect. Spring delivery. Note: We expect to have some of the other 1956 Stout introductions for fall delivery. Write us if interested.
